

Time to patient-reported flare

Haemoglobin [0,130] [130,139] [139,147] [147,278]

Number at risk

Haemoglobin	0	200	400	600	800
[0,130]	189	151	122	101	0
[130,139]	262	218	192	172	0
[139,147]	229	194	172	161	0
[147,278]	293	259	241	222	0

Time from study recruitment (days)

Detailed description: This table provides the number of patients at risk at four specific time points (0, 200, 400, 600, and 800 days) for each haemoglobin stratum. The data shows a general decrease in the number of patients at risk over time, particularly for the lower haemoglobin groups. By day 800, all groups have zero patients at risk.
