

Time to hard flare

BMI + Underweight + Normal + Overweight + Obese

Number at risk

BMI	0	500	1000	1500	2000
Underweight	24	19	15	7	0
Normal	517	465	365	153	17
Overweight	425	385	296	111	14
Obese	255	213	157	57	5

Time from study recruitment (days)

This table provides the number of individuals at risk for each BMI category at various time points. The data shows that the number of individuals at risk decreases over time, particularly after day 1000.
